

Product list

Aluminum Chloride

Product Name	CAS
Aluminum Chloride, ground (powder)	7446-70-0
Aluminum Chloride, screened (granular)	7446-70-0

Flavors & Fragrances

Product Name	CAS
Benzophenone-3	131-57-7
Benzophenone-4	4065-45-6
Benzophenone, cryst.	119-61-9
Benzyl alcohol	100-51-6
Camphene	79-92-5
Camphor DAB 6	76-22-2
Camphor mixtures	–
Cinnamic alcohol	104-54-1
Cinnamic aldehyde	104-55-2
Diphenyl ether	101-84-8
Ethyl formate	109-94-4
Ethyl heptanoate	106-30-9
Heliotropin	120-57-0
Isobornyl acetate	125-12-2
Methyl cinnamate	103-26-4
Methyl salicylate	119-36-8
Nerolin Bromelia	93-18-5
Nerolin Yara Yara, 2-Methoxy naphthalene	93-04-9
Phenethyl alcohol	60-12-8
Phenylacetic acid	103-82-2
Thymol, cryst.	89-83-8

Special Chemicals

Product Name	CAS
1-Methoxy-2-methylethyl acetate (PMA)	108-65-6
2-Ethylantraquinone	84-51-5
2-hydroxyethyl methacrylate (HEMA)	868-77-9
2-hydroxypropyl methacrylate (HPMA)	27813-02-1
4-Hydroxybenzophenone	1137-42-4
8-Hydroxyquinoline	148-24-3
Benzophenone, dest.	119-61-9
Benzotriazole	95-14-7
Biphenyl	92-52-4
Boric acid	10043-35-3
Cyclopentene	142-29-0
Di isopropyl biphenyl (DIBP)	69009-90-1
Diethyl carbonate	105-58-8
Dimethyl carbonate	616-38-6
JOBATHERM I (eutectic mixture Diphenyl ether + Biphenyl)	–
Maleic anhydride	108-31-6
Mono isopropyl biphenyl (MIBP)	25640-78-2
<i>n</i> -Butyl acetate	123-86-4
<i>n</i> -Butyl glycolate	7397-62-8
<i>n</i> -Butyl isocyanate	111-36-4
Optical Brightener 184	7128-64-5
<i>p</i> -toluenesulfonic acid (PTSA)	6192-52-5
<i>p</i> -toluenesulfonic acid solution (65 %)	–
Phenoxyethanol	122-99-6
Phenoxypropanol	770-35-4
Potassium fluoride, spray dried	7789-23-3
Propylene carbonate (PC)	108-32-7
Propylene glycol	57-55-6
RC 81 Eutectic mixture benzophenone + 4-MBP	–
Sodium methoxide, solution	–
 Succinic acid	110-15-6
Tetrabutyl urea	4559-86-8
Tolyltriazole	29385-43-1
Triethylamine	121-44-8
Trioctyl phosphate (TOP)	78-42-2

Product list

UV/EB Curing

- Monofunctional monomers
- Bifunctional monomers
- Tri- and multifunctional monomers
- Toluene-free monomers
- Oligomers
- Photoinitiators

For further information on our UV-curing products, please visit our website (www.jobachem.com).

Our services and equipment:

- Heatable polished stainless steel mixing tanks
- Refilling area with housing and suction and attached counterstream washers
- Homogenization of even highly viscous mixtures through different agitators
- Formulation of solvent-containing mixtures in explosion-proof atmosphere
- Refilling under inert gas
- Crushing machines
- Several semi and fully automated refilling equipment
- Integrated quality assurance for raw materials and finished products
- Production/Purchasing of labels and packaging
- Mixing
- Storage of hazardous chemicals

Plasticizers

Product Name	CAS
 Acetyl tributyl citrate	77-90-7
Diethyl hexyl adipate (DEHA/DOA)	103-23-1
Diisodecyl phthalate (DIDP)	68515-49-1
Diisononyl adipate (DINA)	33703-08-1
Diisononyl phthalate (DINP)	28553-12-0
Diocetyl terephthalate (DOTP)	6422-86-2
 Soybean oil, epoxidized (ESBO)	8013-07-8
 Triacetin**	102-76-1
 Tributyl citrate	77-94-1
 Triethyl citrate*	77-93-0

 Manufactured on the basis of renewable raw materials

* Technical and food grade available

** Palm oil free available
